

Dear Families of the Class of 2022,

High School Experience is off to a terrific start! The first days were full of smiles, laughter, questions, ideas, and adventures on our ropes course to name just a few highlights. We anticipate similar success stories to continue throughout the rest of the week!

Unfortunately, we are also writing to let you know that the Chromebooks originally scheduled to be distributed this week have been delayed in shipment. As the computers are shipped from China to the port of L.A. then on to our vendor in Oregon to be prepared for immediate student use, and then trucked to Franklin, the delay was unavoidable despite the best efforts of both our staff and the shipping companies.

We anticipate that Chromebooks will still be available for pickup well before the start of school. We are working to coordinate alternate distribution dates which we hope will begin next week (we are monitoring the shipment online and anticipate that this will be feasible). In an effort to minimize disruption we will have morning, afternoon, and evening pickup times. As soon as details are finalized we will be communicating further.

We apologize for the inconvenience and appreciate your flexibility. We also look forward to a great finish to High School Experience and an even better start to the school year!!

Sincerely,

FHS Administration
LifeLong Learning Institute
The HSE Team
FPS Technology Dept.
